

**Intimidated by the thought of organizing everything?**

**Don't Worry!**

Unlike larger slideshow companies, Moving Memories will work with you every step of the way – ensuring a final product that is the most meaningful to you. We'll sit down with you and help you plan your show. You can have as much control as you want – after all, who knows what's important to you as well as you do? Together, we'll choose your materials and organize titles, chapters and music. You can view work in progress and make changes as we go. Or, if the idea of spending time and making decisions overwhelms you, we'll sort through your materials and create a sensitive show without your worry.

**Either way, your favorite memories will be consolidated onto a DVD.**

# Celebrate Your Family's Memories

**Gail Spiro has been photographing families and children professionally for over 20 years.**

She holds a BFA from the Cleveland Institute of Art, with a major in Graphic Design and Photography, specializing in multi-media productions. She develops a close relationship with her clients, often returning to photograph their children year after year. Unlike most portrait photographers, Gail comes to your home or to an agreed upon location, where your children are comfortable and relaxed. The results are unique works of art.

Recently, she created a series of beautiful slide shows in honor of her twin sons' graduation. She enjoyed this process so much, and the results had such a strong emotional impact on her own family, that she decided to pursue this exciting venue for other families. Gail now combines these video slideshows along with her own beautiful photography to transform your memories into Moving Memories!

**Don't blink!** Your family is growing and changing so fast, it's hard to imagine preserving all those memories. Gail Spiro, Fine Art Children's Photographer, has been helping to capture those moments for years with her unique photography. Now she can transform your favorite photographs, video clips, music and treasured keepsakes into a beautiful multi-media DVD slideshow. She'll blend your images with title slides, captions, and creative transitions to create a unique one-of-a-kind family keepsake. So whether you plan to present your show at a large gathering, share it with loved ones, or simply preserve your family's mementos, celebrate your family with
